Professional Summary

Computer Science graduate skilled in Python, SQL, Data science and AI/ML, seeking an opportunity to apply and further develop my technical and analytical skills in a professional environment. Eager to contribute to organizational goals through data-driven problem solving, continuous learning, and effective collaboration while growing alongside the organization.

Education

B.Tech in Computer Science & Engineering (Core)

2022 – 2026

Shri Shankaracharya Technical Campus, Bhilai — CSVTU

SPI : 7.6

CLASS XII (CBSE) - 65% — CLASS X (CBSE) - 72%

Technical Skills

Python, SQL, Power BI, Excel, Java, R

Data Science & AI : Data Preprocessing , EDA , Pandas , NumPy , Data Visualization , Seaborn , Matplotlib , Machine Learning , Deep Learning , Natural Language Processing , Big Data , Hadoop , TensorFlow , Keras , Generative AI

Tools : VS Code , Apache NetBeans , RStudio , Git , GitHub

Technical Projects

AI-Powered Smart Farming Dashboard with Crop Disease Detection —

Python, FastAPI, TensorFlow/Keras (MobileNetV2), MySQL, OpenWeatherMap API, HTML/CSS/JS

- Developed a smart farming platform with crop disease detection using CNN (MobileNetV2 Transfer Learning), achieving real-time diagnosis with cure recommendations.
- Implemented ML-based intelligent crop and fertilizer recommendation, and weather-aware irrigation scheduling using OpenWeatherMap API.
- Designed a role-based dashboard with admin panel, prediction history tracking, and CSV report export, backed by MySQL database.

Intelligent Animal Detection and Alert System using YOLOv8 —

Python, OpenCV, YOLOv8 (Ultralytics), Computer Vision, Deep Learning

- Developed a real-time object detection system using YOLOv8 and OpenCV.
- Implemented a priority-based alert mechanism.
- Designed for road safety, wildlife monitoring, and smart surveillance applications.

Hotel Management System

JAVA, Apache NetBeans

- Developed a system to manage hotel room bookings, customer details, and billing.
- Reduced manual booking entry time by 40%

Certifications

- Completed a Regular Training on JAVA — SEED IT Solution *May 2024 – Sep 2024*
Core Java, OOP, GUI Development, Database Connectivity
